11.3 PUBLIC HEARING ON APPEAL of the Planning Commission’s decision to deny a Conditional Use Permit for an asphalt/concrete crushing and recycling facility in the HI Heavy Industrial Zoning District, located approximately 550 feet northerly of Commercial Street and 1000 feet westerly of Berryessa Road (11711 Berryessa Road) on a 1.7 gross acre site. (Graniterock Company, Owner/Developer). CEQA: Mitigated Negative Declaration. The Director of Planning recommends: (1) overturn the Planning Commission’s decision to deny the Conditional Use Permit and (2) adopt a resolution to approve a Conditional Use Permit with the inclusion of an additional condition that would require the applicant to redesign the project to be housed in a permanently enclosed and covered structure.

(CP 00-009 - District 4)

Documents Filed: (1) Memorandum from Mayor Gonzales and Council Member Reed, dated January 9, 2004, recommending approval of the Conditional Use Permit and the conditions as recommended by the Planning Director in the Staff Report to the Planning Commission, dated August 20, 2003 with the modifications and additional conditions contained therein that provide further limits on potential impacts to the neighbors. (2) Supplemental memorandum from Director of Planning, Building & Code Enforcement Stephen Haase, dated January 9, 2004, transmitting supplemental information regarding the appeal of the Planning Commission decision to deny a conditional use permit for an asphalt/concrete crushing and recycling facility. (3) Memorandum from Director of Planning, Building & Code Enforcement Stephen Haase, dated December 10, 2003,
11.3 (Cont’d.)

recommending Council (1) overturn the Planning Commission’s decision to deny the Conditional Use Permit (File No. CP00-03-009) to approval a Conditional Use Permit as described above with conditions as previously recommended by Planning staff, with the inclusion of an additional condition that would require the applicant to redesign the project to be housed in a permanently enclosed and covered structure. (4) Department of Planning, Building, and Code Enforcement Staff Report on Project File Number CP00-03-009, dated August 20, 2003, recommending approval of the subject Conditional Use Permit. (5) Proofs of publication of Notice of Public Hearings, executed on December 30, 2003, submitted by the City Clerk. (6) Hardcopy signed petition and E-mail correspondence to uphold the unanimous decision of the City Planning Commissioner and deny the proposed Conditional Use Permit. (7) E-mail correspondence opposing the proposed Granite Rock project. (8) Hardcopy letter from the United States Department of Commerce National Oceanic and Atmospheric Administration, dated January 13, 2004, recommending the proposed project not be permitted for a location within the floodplain of Coyote Creek. (9) Hardcopy of Powerpoint presentation of the Graniterock Berryessa Recycling Project.

Discussion/Action: The applicant Ben Lacari delivered a presentation on the proposed Granite Rock Berryessa Recycling Project. Council Member Chavez asked the applicant if he had seen the letter submitted to Council from the United States Department of Commerce National Oceanic and Atmospheric Administration, dated January 13, 2004. Ben Lacari stated the agency was one of several to whom Granite Rock will be working closely with in the upcoming months. Council Member Chavez asked the applicant if they have been working with said agency, since they requested in their letter that Granite Rocks’ permit require the complete removal of the stockpiled material during the winter and rainy seasons between October 15th to May 15th. Ben Lacari stated they were planning on working with the agency further and the initial documentation that was sent to them may not have included the winter configuration. He stated they would be meeting with the various environmental agencies and the core of engineers to work out the final details and resolve any issues they may have since their approval is a requirement for permits. Craig K. Breon, Henry Zheng, Eric Gold, Milton Barrocas, Magnolia Lee, Wilson Lee, George Netto, Neil Struthers, Dale Warner, Fannie Zhang, Vu Tran, Chau Tran, Ming Pun, Kansang Liao, Chris Bencher, and James A. Cannon spoke on the issue.

Council Member LeZotte expressed her concerns regarding the request from the U.S Department of Commerce National Oceanic and Atmospheric Administration to place restrictions upon Granite Rock and asked the applicant for reasoning behind why this agency would request such a thing. Ben Lacari stated the agency must offer a biological opinion to the core of engineers to which they must accept that opinion first to issue an at-fault permit to Granite Rock and that permit has yet to be issued, but stated they would be meeting with them the next day to discuss any of their concerns.

Council Member Reed moved approval of his and Mayor Gonzales’ memorandum, dated January 8, 2004 with said conditions contained therein. Council Member Chavez seconded the motion. Council Member LeZotte asked staff what will they be looking at in terms of the compliance hearings. Director of Planning, Building & Code Enforcement Stephen
11.3 (Cont’d.)

Haase stated in looking at the conditions of the permit, Granite Rock will still need to do the required water quality monitoring based upon the final solution for runoff and also fulfill the Bay Area quality issues. Council Member Williams asked the applicant if the existing noise level measured within the City’s acceptable level. The applicant Bart Heckman stated the noise levels met City standards without the consideration of the fact that the plan is legal and nonconforming, the plant is currently not legal and nonconforming in regards to noise, they are only legal, therefore the current noise level is within the City’s requirements.

Council Member Yeager asked staff what were the requirements for persons buying a home within the area close to Granite Rock to be disclosed about the existing conditions of the surrounding areas. Director Haase stated the title of the house that is supplied to the buyer should include all, if any legal issues in relation to the house they are purchasing and he was not sure if there have been any legal issues with Granite Rock that would require it to be on the title of any nearby housing. Council Member Reed stated he has been working with the issues of Granite Rock for over three years and amongst those years, he has walked the land use areas in question to specify where the noises that spurned the complaints from the community were coming from. The area so happens to be amongst an Industrial area to which the companies who are there create much noise, so Granite Rock cannot be the only company that is at fault for all of the noise pollution and he asked his fellow Council members for their support. Mayor Gonzales asked Director Haase to clarify what the U.S Department of Commerce National Oceanic and Atmospheric Administration’s standard method of operation was and why would they make observations stated in their memorandum so late in the process and for staff to clarify what is the true purpose of the said memorandum. On a call for the motion and unanimously carried, the memorandum from Mayor Gonzales and Council Member Reed, dated January 8, 2004, recommending approval of the Conditional Use Permit and the conditions as recommended by the Planning Director in the Staff Report to the Planning Commission, dated August 20, 2003, with the following modifications and additional conditions contained therein with the additional direction for staff to conduct a compliance hearing in one year to allow the Planning Commission and staff to assess compliance with all conditions contained in the recommendation and said Council memorandum. Vote: 10-0-1-0. Absent: Dando.
