3/13/06

Council District: Citywide

**SUBJECT: NORMAN Y. MINETA SAN JOSE INTERNATIONAL AIRPORT  
NORTH CONCOURSE BUILDING  
FOUNDATION AND UTILITY TUNNEL CONCRETE (Package 2A)**

## RECOMMENDATION

Report on bids and take appropriate action based on the evaluation of bids for the Norman Y. Mineta San José International Airport North Concourse Building Foundation and Utility Tunnel Concrete (Package 2A) Project.

CEQA: Resolutions No. 67380 and 71451, PP 04-03-092

## BACKGROUND

The North Concourse Building Project is the first in a series of planned terminal and concourse improvements at the Airport. Located between the existing Terminals A and C, the project will construct an approximately 400,000 square foot concourse building with passenger holdrooms, concession areas, airline operations and administrative spaces.

The construction of the North Concourse is being implemented using multiple construction contracts/packages. Package 1, Site Preparation and Excavation, which is complete, included demolition, grading, excavation, shoring, dewatering, relocation of security fence and other associated miscellaneous work to prepare the site for subsequent contracts. Package 2, Foundation Piles, is currently in progress. Package 2A will construct the concrete work from the foundation to ground level including waterproofing. The Engineer's Estimate for this construction contract is \$12,558,000. A supplemental memo will be provided after bids are opened on March 16, 2006.

Potential bidders have been pre-qualified according to the City of San José policy.
