Council District: 2

RECOMMENDATION

Approval of an agreement with CWA, Inc. for consultant services for the Edenvale Branch Library Project, from the date of execution to April 30, 2007, in an amount not to exceed \$998,750.

CEQA: Not a project.

BACKGROUND

The Edenvale Branch Library is the tenth library to be initiated under the Branch Facility Master Plan. The branch will be located at the southeast parcel in the intersection of Monterey Road and East Branham Hill Road.

Public Works and Library Department staff conducted the architectural consultant interview and selection process per the Consultant Selection Procedure, and recommends the retention of CWA Inc., to provide the design for this project.

The scope of work will include program review, conceptual design, schematic design, design development, preparation of construction documents, bidding and award, construction administration, preparation and compiling of record documents and project closeout.

The building programming, conceptual and schematic design scope of work will include community outreach.

Construction is scheduled to begin in summer 2005 with completion in spring 2007.

ANALYSIS

Public Works and Library staff and other panel members interviewed five firms, and as result, CWA, Inc. was selected for the Edenvale Branch Library.

Staff negotiated a fee of \$998,750, which is reasonable for the work. The schedule requires the architect to start work in March of this year.

A member of the firm who is LEED Accredited is included on the Design Team for this facility. The facility will be designed in accordance with the Green Building Policy.

An alternative to hiring a consultant for this work is for the work to be done by existing City staff. Staff considered this alternative and recommends using a consultant because current City staff is fully utilized and there are no available existing City staff resources with appropriate expertise. Shifting existing City staff resources to this project at this time would delay the project.

PUBLIC OUTREACH

The Request for Qualifications for consultant services was published in the *San José Mercury News* in November 2002.

The first community meeting will be held in April 2004 to solicit input of the building design. Future project meetings will be advertised at various nearby branch library locations for conceptual design and the schematic design processes.

COORDINATION

This agreement and memo have been coordinated with the Departments of Planning, Building and Code Enforcement, Finance, the City Manager's Budget Office and City Attorney's Office.
