ANALYSIS AND RECOMMENDATIONS

BACKGROUND

The applicant is requesting to rezone the subject 0.61 gross-acre site from LI Light Industrial to CG Commercial General to allow for commercial uses. The site is currently developed with a mixture of compatible commercial uses, a restaurant, martial art studio and office. The site is entirely surrounded by light industrial, industrial park and commercial uses.

The proposed CG Commercial General is intended to allow a full range of retail and commercial uses with a local and regional market. The current LI Light Industrial zoning limits the gross square footage for public eating establishments to 650 square feet. The applicant is proposing an additional 1,168 square-foot public eating establishment.

ENVIRONMENTAL REVIEW

The environmental impacts of this project were addressed by a Final EIR entitled, "San José 2020 General Plan EIR," which was certified on August 16, 1994 by the City of San José City Council (Resolution Number 65459).

GENERAL PLAN CONFORMANCE

The site is designated Combined Industrial/Commercial on the San Jose 2020 General Plan Land Use/Transportation Diagram. The proposed CG Commercial General Zoning District is consistent with this designation in that the zoning district allows a full range of retail and commercial uses and development standards consistent with the commercial elements of this General Plan designation.

ANALYSIS

The proposed rezoning to CG Commercial General is in conformance with Combined Industrial/Commercial General Plan designation and will facilitate the applicant's intention to operate a 1,168 square-foot catering business in addition to the existing public eating establishment and martial art studio already existing on the same property. Under the current LI

Light Industrial Zoning District, public eating establishments are limited to a maximum of 650 gross square feet in size and therefore, the 1,168 square feet public eating establishment proposed would not be permitted.

In addition, the proposed rezoning of this site to CG, Commercial General would bring the existing and proposed public eating establishments and martial art studio into conformance with the zoning on the site. Staff is supportive of another public eating establishment on site and will work with the applicant through the Site Development Permit stage to confirm the appropriate amount of parking provided. The applicant has stated that the new commercial use would be "take-out" only, and therefore, the existing parking on site may be adequate.

PUBLIC OUTREACH

A notice of the public hearing was distributed to the owners and tenants of all properties located within 500 feet of the project site. Staff has been available to discuss the proposal with members of the public.

COORDINATION

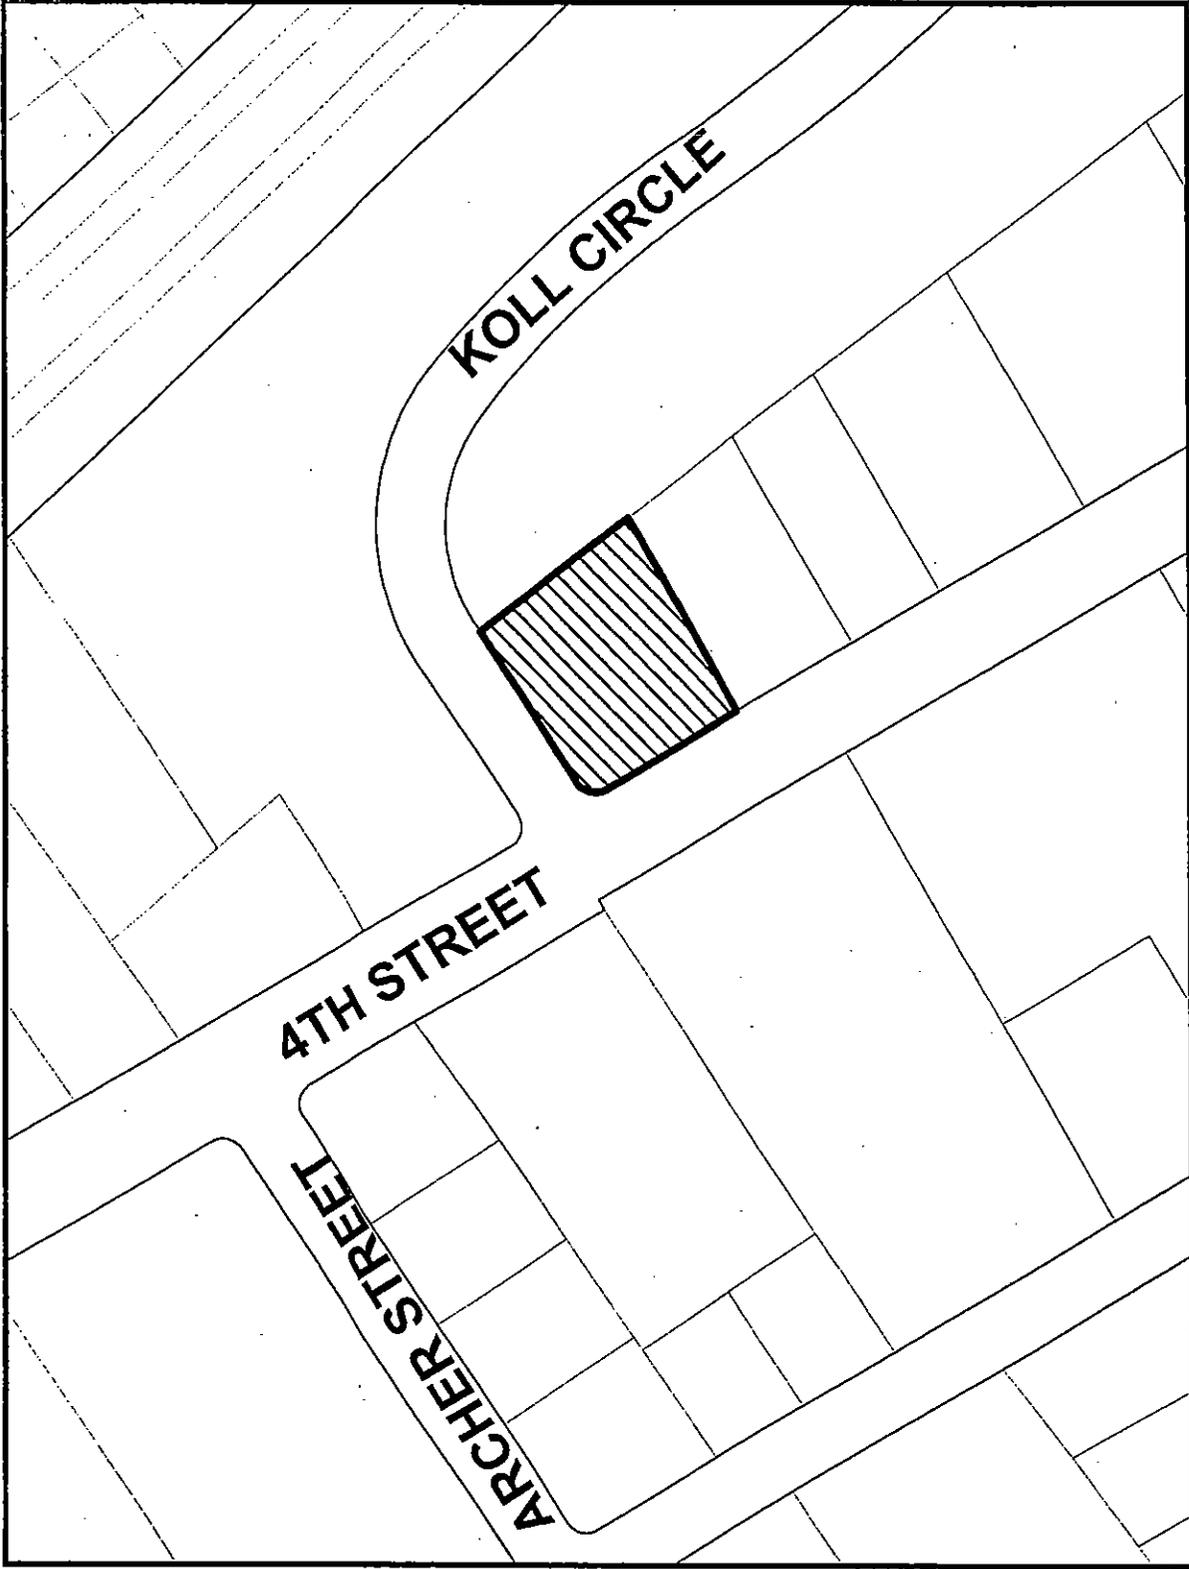

This project was coordinated with the Department of Public Works, Fire Department, Building Division, Environmental Services Department and the City Attorney.

RECOMMENDATION

Planning staff recommends approval of the proposed zoning for the following reasons:

1. The proposed rezoning is in conformance with the General Plan Land Use/Transportation Diagram designation of Combined/Industrial Commercial.
2. The proposed rezoning will facilitate development of this site that is compatible with the surrounding uses.
3. The proposed rezoning will facilitate future development of the site that is consistent with the Rincon South Specific Plan.
