SUPPLEMENTAL

SUBJECT: Technical Corrections to 2005 Report on the Implementation of the San Jose 2020 General Plan Housing Element

REASON FOR SUPPLEMENTAL MEMO:

Correction of two mistakes in the text of the report.

RECOMMENDATION

Approve the report with the corrections indicated below.

BACKGROUND AND ANALYSIS

Subsequent to distribution of the report, two minor mistakes were identified. On page one, the correct title of the report is the **2005** Report on the Implementation of the San Jose 2020 General Plan Housing Element. On page 15 of the report, the sentence at the top of the page should read "A City Council appointed community task force is currently considering a range of development scenarios that would add capacity for **3,600 to 5,700** new housing units within the Evergreen-East Hills area, depending upon the final scenario selected."

PUBLIC OUTREACH

No separate public outreach was conducted as a part of preparation of this report. However, most, if not all, of the City programs described in the report include public outreach in some form.
