

# Memorandum

**TO:** RULES COMMITTEE  
**FROM:** John Stufflebean  
**SUBJECT:** City Council-Santa Clara Valley  
Water District Board Joint Study  
Session on Watershed Issues  
**DATE:** 12-16-06

---

Approved  Date 12-21-06

---

## RECOMMENDATION

Approval to schedule a Joint Study Session on watershed and water quality issues with the City Council and the Santa Clara Valley District Board of Directors:

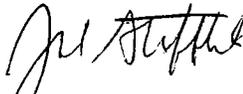

Date: April 20, 2007  
Time: 9 a.m. – noon  
Location: City Hall Rooms W118-120

## BACKGROUND

The City Council has been meeting annually with the Santa Clara Valley Water District Board of Directors (Board) to review and discuss issues and projects of joint concern. Most recently, they met on September 27, 2006. At that meeting, Council and the Board directed staff to prepare a Study Session on watershed and water quality issues to be held in Spring 2007. They further directed that the following topics be brought forward for review and discussion:

- Watershed Programs and Issues
- Water Quality

After reviewing Council and Board availability, the meeting, date and time that worked best for both agencies is April 20, 2007 from 9am to noon. Staff will prepare briefing packets for distribution approximately two weeks prior to the study session.

  
JOHN STUFFLEBEAN  
Director, Environmental Services
