RE: Letter dated September 27, 2011

Dear Dan:

In your letter of September 27, 2011, you stated the following:

“Through the month of August, the Union’s asked for the City’s demographic data that an actuary would need for a proper cost analysis and very little was provided....”

As we have previously indicated, the City has been responsive to all information requests made related to retirement. In our letter dated August 25, 2011, we provided the links to documents that have been made available by the Federated City Employees’ Retirement System Board. This includes data this is available and that has been used by the Board’s actuary to prepare the 2010 valuations. This information is also responsive to the request referenced above.
