Subject: willow glen redistricting

To Whom It May Concern,

I heard from my neighbor that our neighborhood may be chopped up and placed in another council district. Growing up in Willow Glen I am not sure why this would be considered.

My wife and I purchased our home back in 2000 during the representation of then supervisor Frank Fiscalini. Family and friends were a priority in buying our home as both my parents and brother live in Willow Glen. Another major factor why we bought our current home is the proximity of St. Christopher's church where our four children go to school. We are in the Bagby enrollment area which zig-zags through our neighborhood with no rhyme or reason but our sense of community is Willow Glen and the active parishioners of St. Christopher's that live in our neighborhood.

I am not sure of all the details however I am not in favor of being in another council district.

Will there be some type of public meeting on this topic?
