Subject: I support our neighborhood being included in District 6

Years before council districts were created there was a neighborhood called Willow Glen. When Council districts were formed my Eichler neighborhood was included in District 6. Without any notification our neighborhood was removed from District 6. I know the history since I have lived in the same house for 50 years on Fairlawn Ave. Willow Glen deserves to be represented by one council district. As a career teacher I have always taught my students to do the right thing. Please do the right thing and keep the Willow Glen neighborhood together.

To be clear I support our neighborhood being included in District 6.
