Subject: Redistricting of Willow Glen

To whom it may concern:

I will not be able to attend tomorrow's meeting (which I only learned about last night), but am concerned about the proposal to redistrict neighborhoods south of Curtner into Cambrian. Students south of Curtner attend the same elementary school (Booksin) as those North of Curtner. Curtner has never been considered a boundary line for Willow Glen. Furthermore I find it shocking that such a proposal was made without a major formal notification in such a stealthy and rapid manner with only one meeting to discuss the possibilities to address the redistricting issue.

I am steadfastly opposed to making Curtner a dividing line of any part of Willow Glen. If the Cambrian district needs a bigger population, they should obtain it from the Rubino Circle neighborhood.

Thank you for your time,

Kristin Arendt
