Subject: Redistricting district 6

I as well as my neighbors are furious with the City of San Jose and the talk about redistricting our area from Willow Glen to Cambrian. I pay my taxes based on the value of my home, I bought my home in the Willow Glen district in 1989. To classify my home in Cambrian will definately detract from it's value, resale as well as worth. Hasn't the City of San Jose made enough bad mistakes with tax dollars not to mention messing up districts due to cut backs? I was born 65 years ago and raised in San Jose. The City government has taken a Garden City and squeezed the life out of it. Now the City is contemplating squeezing the history out of it's citizens (original and imported). To take my area and redistrict it to Cambrian will be as damaging as lighting a match to my home. I live at _____, and commonly use Willow Glen, 95125 for my mail, that's primarily because Willow Glen still has the nostalgia that the City of San Jose and it's mismanagement has taken away from the citizens and their ancestors who grew up and contributed to this place on earth. Shame on all of you, you are contributing to making San Jose another place gobbled up by mismanagenent and people who have nothing better to do than take away another assest it's citizens and tax payers are and have been paying for all these years. To redistrict my area from Willow Glen to Cambrian would be one more sin the City Council has committed. Why not have a vote from the people who live in the area you want to wreck and devalue? Probably because the switch will not have any impact to any of you because of the street you live on.
