Subject: District 6 Redistricting

Dear Redistricting Commission,

I am writing in reference to considerations being made for reconfiguring District 6 based on 2010 census numbers. Let it be known that I am adamantly opposed to carving up District 6 and, more specifically, the cohesive community that is Willow Glen. I was born and raised in the neighborhood and have purchased a home and settled my family in the very same area of Willow Glen and District 6. There are viable alternatives available, and I encourage the Commission to consider them strongly. Based on the resounding response offered at the May 9th public forum at the Willow Glen Community Center, it should be clear to your group that our community vehemently opposes being moved out of District 6.

Regards,

Steve & Amy Giachetti
