Subject =Do not redistrict Willow Glen 6-9 (e,a, aa, aaa)

Content = We live in the area between Curtner and Dry Creek road near Leigh Ave. When we first bought into the Crestmont neighborhood near Bagby School 30+ years ago, we were told that we were part of the Willow

Glen area. This area has been a pocket realestate area that has seen increased home value when the rest of the Cambrian area has seen decreased value. People who buy into this area have cited the Willow Glen designation as one of their reasons for buying. We would hate to see this jeopardized with the redistricting. We shop and socialize in the Willow Glen area and identify with this region of the city. We also see no advantage to either the city or the residents of this area for making such a substantive change (This includes the comments made by the

Cambrian School District's Superintendant that seem more confusing than substantive). Please do not alter the current districting boundaries. Please delete the transfer areas of 6-9(a), 6-9(aa), and 6-9(aaa) and (e) from any proposal. We do not wish to be moved! Fran and Bob Cole
